Orbiting the Universe...

HAVANA — Cuba said it would permit U. N. investigators to verify the removal of Soviet missiles from Cuba if the United States would agree to U. N. supervision of dismantling what it termed Anti-Castro training bases on U. S. soil. The surprise demand, first disclosed by the government press, was believed to have been formalized for presentation to the United Nations through Deputy Premier Anastas Mikoyan, the envoy sent by Russia to patch up Soviet-Cuban differences.

GENEVA — The United States said the Cuban crisis which brought the world "so close to the abyss of nuclear war" showed the urgent need for East-West agreements on disarmament and nuclear test. But the Soviet response at the reconvened 17-nation disarmament conference in Geneva was cool.

RAWALPINDI, Pakistan — Opposition members of the National Assembly demanded the ouster of pro-Western Foreign Minister Mohammad Ali and Pakistan's withdrawal from Western military alliances. Demands for adoption of a neutral foreign policy at a closed emergency session followed strong criticism of the West for having supplied arms to India to fight the Chinese Communists. The U. S. Embassy announced that Averell Harriman, head of a U. S. Arms Fact-Finding Mission to India will fly to Pakistan Wednesday to calm fears the arms might be used against Pakistanis.

Stone Addresses Senate In State of Studentbody

by Sheila Carter

During this year and in previous years, the student-body has tended to criticize the student government in two main areas, said Dave Stone in his State of the Studentbody

Address, Monday evening. The first of the areas is the feeling that the Student Government is "Mickey Mouse."

Students voicing this criticism are usually unaware of the many activities and projects that Student Government is involved in. If it weren't for Student Government there would be no dances, assemblies, Winter Carnival, Junior Prom, or many more events, Stone remarked.

THE SECOND criticism is rendered by those who are not fully aware of the responsibilities of the Student Government to the Administration nor the Administration's responsibility to Student Government, said Stone.

Since BYU is a church university the Administration has the responsibility of seeing that the Student Government does not do anything that would be against the Church standards or principles, continued Stone.

With the appointment of the new Dean of Students and the new student co-ordinator, the Student Government this year has been able to make their own decisions. But with this power to make their own decisions has come the responsibility which lies with these decisions. As an example, President Stone cited the case of Dave Grow recalled from office as a result of Senate action, not Administrative pressure.

EACH SPEECH will be from eight to ten minutes in length and based on a faith-promoting subject.

The contest was inaugurated in 1950 by Dr. T. Earl Pardee, under the sponsorship of Heber J. Grant, then president of the Church of Jesus Christ of Latter-day Saints. The purpose was to encourage good speaking on religious themes by young people in the Church.

Judges will be Dr. Albert O. Mitchell and Mrs. Grace Nixon Stewart, both of the Dramatic Arts Department, and Soren F. Cox, English instructor.

Concert Band, Oratorio Choir Combine Wed.

The annual fall concert of the BYU Concert Band will be presented Wednesday at 8:15 p.m. in the Joseph Smith Auditorium.

The program which is open to the public will be under the direction of Prof. Ralph G. Laycock, conductor of the band since 1953.

CARL FURSTNER, internationally known composer, pianist and brass instrumentalist, will be a special guest for the concert. He will direct several of his own compositions, some being performed for the first time.

Trombone soloist in one of Mr. Furstner's compositions will be Carson Sharp, instructor in lower brass instruments and brass ensembles and former instructor at the Navy School of Music.

The 130-voice Oratorio Choir, which is directed by Dr. John E. Halliday, will join the band for two numbers under the baton of Professor Laycock.

THE CONCERT Band, which is composed of 13 members from every geographical area of the United States, has performed throughout the Western States and in Western Canada.

In 1958 they appeared before the national convention of the Music Educators National Conference at Los Angeles.

Student Leaders List Prexy, Veep Qualities

What qualities are necessary in a class officer? BYU juniors will consider that question Tuesday afternoon when they nominate candidates for president and vice president of their class. The special election is occasioned by the recall of co-president Dave Grow by the Senate.

Class leaders have varied recommendations about what to look for in an officer candidate. Jim Hurst, vice president of the graduate class, feels a nominee must be "reasonably intelligent and ambitious," due to demands on his study time. He must provide an "example of academic excellence."

In addition, he should be sensitive to the needs of others in order to develop adequate interpersonal relations. He should possess integrity and an awareness of moral values, especially those of the Latter-day Saints at BYU. Not only knowing the right thing to do but having the courage to do it is a vital characteristic. Not the least important is a genuine concern for others, especially the particular group represented.

GRADUATE president Grant Brimhall was not available for comment.

Bob Church, president of the senior class, pointed out that an officer must be an above average student willing to learn from his own mistakes. He must be able to arouse interest and enthusiasm in others and encourage cooperation. "A student office can take as much time as you want to give, therefore, you have to be willing to work," he said.

Senior vice president Brent Sperry emphasized the necessity of a willingness to sacrifice study time for the responsibilities of leadership. A nominee must be able to plan, choose committees, take the initiative, make decisions, and schedule his time. He must be socially active, he said.

THE FRESHMAN president, Micron Grant categorized qualifications as functional and personal. In the first category he included experience in some level of student government and a

working knowledge of the school constitution and class organization. Personal qualifications encompass good character and an ability to meet people, make friends and instill cooperation. A chief need is an honest, sincere desire to work for the class represented.

Kim Jacobs, freshman vice president, said it was easier to list qualifications an officer shouldn't have rather than those he should. A candidate should not be swayed by ambition or hopes of glory. He needs friends to support his campaign and later his work in office. He must be "out going" general good citizen possessing fortitude, persistence, self-assurance, confidence and unselfish motives.

SOPHOMORE vice president Gary Anderson said, "There is no particular road to any office. Qualifications other than those specified in the Constitution are hard to define." He listed high principles and good moral character as qualifiers "for any office."

The BYU Constitution requires a 2.5 cumulative grade-point average unless the grade for the preceding semester was 3.0. Nominees must also carry at least 30 semester hours. They must pass a test on the ASBYU Constitution.

Fortie's Jersey Retired At Studentbody Meet

The football jersey of Eldon Fortie, BYU's All-America tailback, will be permanently retired, according to University officials who announced the precedent-breaking action Saturday.

Thus, the BYU star, who has already been named to the first team of one All-America selection, becomes the first player in the school's history to be so honored.

Fortie's "number 40" will be formally retired at a studentbody gathering Friday night in the George Albert Smith fieldhouse. The number will not be used by any future BYU football player or listed on any future varsity football roster.

The action, which was initiated by the BYU Athletic Council and won full support from the Administration, was enthusiastically received when disclosed on the Provo campus.

"All of us feel that Eldon is deserving of this honor," said Edwin R. Kimball, the Cougars' athletic director. "We hope that the fans will also recognize this as

a tribute not only to Eldon, but to his teammates and members of the coaching staff as well."

FORTIE'S jersey will be placed in a special case in the foyer of the George Albert Smith Fieldhouse along with certificates of award he has earned this year.

If you have trouble saying it...

Say it with a Parker

If you're a little shy and have difficulty saying "I love you" or even "I like you very much"—say it with a Parker.

The new Parker Arrow makes a beautifully expressive gift and looks as if you paid a small fortune for it. It only costs \$3.95, however, which should leave you with enough date money for an impressive presentation ceremony in romantic surroundings as the second booth from the back in your local drugstore.

The new Parker Arrow comes in black,

dark blue, light blue, light gray, and bright red, with a choice of four instantly replaceable solid 14K gold points. Gift-boxed with five free cartridges.

P. S. To girls: a Parker Arrow—besides being a very romantic gift—comes in one size (the right one), should last at least ten times longer than a scarf or a tie, and should bring in a harvest of correspondence you'll cherish the rest of your life.

Good, Bad, False News Discussed by Peterson

Literature contains good, bad and false news. But great literature usually has more bad news than good in it, said Miss Virginia Peterson at Monday's forum. As examples she cited Nicholas Tucci's "The Desert in the Oasis" and "Before My Time."

As her definition of "good news," Miss Peterson borrows the words of Thoreau: "I hear no good news save it be some noble trait of character."

"IT'S A GOOD thing Thoreau

hasn't read modern fiction," Miss Peterson commented.

A great poet sometimes spreads false news, said Miss Peterson. This is because it is so beautiful that it can't be retained. Such an example is "No Man is an Island." Actually, Miss Peterson says, man really is an island. Ultimately he stands alone.

According to Miss Peterson, a sense of loneliness prevails contemporary books. We have new knowledge but it doesn't make us safer or happier. Both science and literature have discovered that what we are composed of has a bearing on how we behave.

AS A CRITIC, Miss Peterson cited Katherine Ann Porter as a very clever writer who drips poison into the minds of her readers. No really great writer would try to corrupt such as Katherine Porter does.

Miss Peterson condemned the U.S. Mediator of Culture as a man of little insight who goes sweeping out over the ice without seeing it. It will hold him up. She thinks his book about happy people is a book of dreams and that poor and sick people can't become happy through art alone.
